FROM : DIAPL

SUBJECT: CY 71 Review CIRIS Instructions

1. The CIRIS '71 Working Group is currently engaged in a series of meetings for the purpose of preparing the CIRIS '71 instructions.
2. The Working Group is chaired by a DASD(I) representative [] and has member representation from DIA, NSA, the ACSI's of the Military Departments, NIPE/CIRIS staff, and OSD(C).
3. The CIRIS classification scheme (for POSINT only) is at the enclosure. The enclosure was derived from the OASD/A, DASD(I) Memorandum, subject: The Consolidated Intelligence Resource Information System (CIRIS): General Defense Intelligence Program (GDIP) Reporting, dated 29 January 1970.
4. Thus far proposed by DIA was the revision of the Target Area column (Column (10)) to accommodate the Annex A JSOP Intelligence Objectives. This proposal was not viewed favorably for a number of reasons. The primary reason is a national level community requirement to expand the list of countries perhaps to the point of listing all countries individually.
5. Another DIA proposal was based on the DIACO recommendation (DIACO memo S-52,574/CO-5A, subject: CIRIS Data (U), dated 30 April 1970) to expand the list of functional sensors (Column (7)). The DIACO recommendation will likely be incorporated into the CIRIS '71 instructions.
6. Any recommendations for revision of the current CIRIS instructions should be transmitted to LTC Siracuse, DIAPL-2B, extension 53362 prior to 5 June 1970.
7. Acknowledgment of receipt of this memorandum is requested; extension 53362.
